Dear Friend:

As you know, I am again seeking your support for re-election as Freeholder for Galloway Township on the Board of Chosen Freeholders in Atlantic County on election day, November 4, 1947. During the twelve years that I have been your representative in the County Government I have to the best of my ability endeavored to serve the interests of all of the people of Galloway Township and have considered myself more as a friend and neighbor to those whom I represent than a strictly political appointee. I cherish the trust that you have continually reposed in me term after term.

At present I am Chairman of the Ordinance Committee and member of the Bridge and Detention Home Committees of the Board. I believe that the voters of Galloway Township have a right to know that I have attended all committee meetings and Board meetings regularly so that whenever the affairs of Galloway Township were particularly concerned I might be on hand to represent the Township.

I am pleased to report that at the present time lumber is on the cite and work will shortly begin on a new bulkhead and dock at Oyster Creek, and that a new concrete bridge has been definitely agreed upon by the Board of Freeholders to span Manheim Avenue.

During the past year the following roads in our Township were resurfaced:

Jimmy Leeds Road
Oyster Creek Road
Leipzig Avenue
Portions of Moss Mill Road
Portions of Cologne — Port Republic Road

I respectfully emphasize that my efforts to represent you have been without regard to your political affiliation as I realize full well that voters of all political faiths put me in office. I hope to be able to continue to fulfill the trust that you have given me these past twelve years.

May I express my thanks to you now in anticipation of your support on General Election day, Tuesday, November 4, 1947.

Very sincerely yours,

Joseph Sahl

Paid for by Joseph Sahl.
